In the past, the company's support group has faced difficult time because users changed the configuration of their workstations. Which of the following features of the Active Directory would best justify the move to the Windows 2000 network.?

- A. Dynamic domain name system (DDNS)
- B. Organizational unit (OU)
- C. Dynamic host configuration protocol (DHCP)
- D. Group policy object (GPO)

Answer: D

3.Which of the following devices connects two segments of the same local area network (LAN) but keeps traffic separate on the two segments?

- A. Hub
- B. Modem
- C. Bridge
- D. Switch

Answer: C

4.You work as a Network Administrator for McRoberts Inc. The company has a Linux-based network. You have created a script named lf.cgi. You want to provide the following permissions on it:

rwsr-sr-- Which of the following commands will you execute?

- A. chmod 2754
- B. chmod 6754
- C. chmod 7754
- D. chmod 4754

Answer: B

5.Which of the following records is the first entry in a DNS database file?

- A. SOA
- B. SRV
- C. CNAME
- D. MX

Answer: A

6.Which of the following terms describes software technologies that improve portability, manageability and compatibility of applications by encapsulating them from the underlying operating system on which they are executed?

- A. Application virtualization
- B. Encapsulation
- C. System hardening
- D. Failover

Answer: A

7.Which of the following frequencies are used by wireless standard 802.11n to operate? Each correct answer represents a complete solution. Choose two.

- A. 1 Ghz
- B. 2 Ghz
- C. 2.4 Ghz
- D. 5 Ghz

Answer: C, D

8.What is the maximum cable segment length supported by a 10BaseT network?

- A. 100 meters
- B. 300 meters
- C. 250 meters
- D. 500 meters
- E. 150 meters

Answer: A

9.Mark works as a Network Administrator for NetTech Inc. The company has a Windows 2003 domain-based network. The company has two offices in different cities. The offices are connected through the Internet. Both offices have a Windows 2003 server named SERV1 and SERV2 respectively. Mark is required to create a secure connection between both offices. He configures a VPN connection between the offices using the two servers. He uses L2TP for VPN and also configures an IPSec tunnel. Which of the following will he achieve with this configuration?

Each correct answer represents a part of the solution. Choose two.

- A. Encryption for the local files stored on the two servers
- B. Highest possible encryption for traffic between the offices
- C. Mutual authentication between the two servers
- D. Extra bandwidth on the Internet connection

Answer: B, C

10.You have a customer who wants to put wireless internet in his remote cabin. The cabin is many miles from any other building with internet connectivity or access points. What should you recommend?

- A. DSL
- B. FIOS connection
- C. Satellite internet
- D. Microwave connection

Answer: C

11.Which of the following terms refers to manual assignment of IP addresses to computers and devices?

- A. Static IP addressing
- B. Spoofing
- C. APIPA
- D. Dynamic IP addressing

Answer: A

- B. Sam Spade
- C. NIDS
- D. ACL

Answer: D

20.John works as a Network Administrator for Perfect Solutions Inc. The company has a Linux-based network. John is working as a root user on the Linux operating system. He executes the following command in the terminal:

```
echo $USER, $UID
```

Which of the following will be displayed as the correct output of the above command?

- A. root, 500
- B. root, 0
- C. John, 502
- D. John, 0

Answer: B

21.Which of the following is a security threat if included in the search path of a computer?

- A. /usr
- B. /sbin
- C. .
- D. /usr/bin

Answer: C

22.Which of the following directories contains the log files in Linux?

- A. /log
- B. /root
- C. /var/log
- D. /etc

Answer: C

23.Which of the following statements are true about satellite broadband Internet access? Each correct answer represents a complete solution. Choose two.

- A. It is among the least expensive way of gaining broadband Internet access.
- B. It is among the most expensive way of gaining broadband Internet access.
- C. This type of internet access has low latency compared to other broadband services.
- D. This type of internet access has high latency compared to other broadband services.

Answer: B, D

24.You want to temporarily change your primary group to another group of which you are a member. In this process, a new shell will be created, and when you exit the shell, your previous group will be reinstated. Which of the following commands will you use to accomplish this task?

- A. newgrp
- B. chgrp
- C. chown
- D. chmod

Answer: A

25.Rick works as a Network Administrator. He is configuring the systems for maximum security. Before using the security template, he wants to edit it to change some of the security settings that are not required for now. Which of the following tools will he choose, to edit the security template?

- A. Group Policy MMC snap-in
- B. Security Configuration and Analysis MMC snap-in
- C. Security Templates MMC snap-in
- D. SECEDIT utility

Answer: C

26.Which of the following enables an inventor to legally enforce his right to exclude others from using his invention?

- A. Patent
- B. Artistic license
- C. Phishing
- D. Spam

Answer: A

27.Which of the following ports is the default port for IMAP4 protocol?

- A. TCP port 443
- B. TCP port 143
- C. TCP port 25

D. TCP port 80

Answer: B

28. You work as a Network Administrator for Tech Perfect Inc. The company has a Linux-based network. You have configured a VPN server for remote users to connect to the company's network. Which of the following encryption types will Linux use?

A. MSCHAP

B. RC2

C. 3DES

D. CHAP

Answer: C

29. You work as a Linux Technician for Tech Perfect Inc. You want to protect your server from intruders who exploit services that are started with TCP Wrappers. Which of the following files will help you protect the server?

Each correct answer represents a part of the solution. Choose two.

A. httpd.conf

B. lilo.conf

C. hosts.deny

D. hosts.allow

Answer: C, D

30. Which of the following statements about service pack are true? Each correct answer represents a complete solution. Choose two.

A. It is a collection of Fixes and Patches in a single product.

B. It is a medium by which product updates are distributed.

C. It is a term generally related to security problems in a software.

D. It is a term used for securing an operating system.

Answer: A,B
