Answer:

Tools

- Microsoft PowerBI
- Microsoft Visual Studio
- Microsoft PowerApps

Answer Area

- Task**
- Configure dashboards.
 - Manage test automation.
 - Deploy models.
 - Integrate data sources.

Tool
Microsoft PowerBI
Microsoft Visual Studio
Microsoft Visual Studio
Microsoft PowerApps

2.DRAG DROP

You need to create a new Dynamics 365 application that limits users to viewing only customer accounts. Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Go to the Office 365 admin center.
- Create a new PowerApp app.
- Add components to the app.
- Save the app.
- Publish the app.
- Add flows to the app.

Answer area

Answer:

Actions

Go to the Office 365 admin center.

Create a new PowerApp app.

Add components to the app.

Save the app.

Publish the app.

Add flows to the app.

Answer area

Create a new PowerApp app.

Add components to the app.

Save the app.

Publish the app.

3.DRAG DROP

A company wants to automate functions performed by some of its departments. You need to select the appropriate Dynamics 365 application for each function.

Which applications should you select? To answer, drag the appropriate applications to the correct functions. Each application may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Applications	Answer Area	Function	Application
Dynamics 365 for Sales		Support takes incoming calls for defective products and assigns them to the correct groups.	
Dynamics 365 for Customer Service		Business development managers need to track progress on potential clients.	
Dynamics 365 for Field Service		A system sends emails and product literature to current and potential customers.	
Dynamics 365 for Marketing		A system enables technicians to check which supplies are on their trucks as well as which supplies are at the main location.	

Answer:

Applications	Answer Area	Function	Application
Dynamics 365 for Sales		Support takes incoming calls for defective products and assigns them to the correct groups.	Dynamics 365 for Customer Service
Dynamics 365 for Customer Service		Business development managers need to track progress on potential clients.	Dynamics 365 for Sales
Dynamics 365 for Field Service		A system sends emails and product literature to current and potential customers.	Dynamics 365 for Marketing
Dynamics 365 for Marketing		A system enables technicians to check which supplies are on their trucks as well as which supplies are at the main location.	Dynamics 365 for Field Service

4.You need to select a Dynamics 365 for Customer Engagement application to help your organization effectively track, manage, and deliver project-based services.

Which application should you select?

- A. Customer Service
- B. Field Service
- C. Project Service automation

D. Sales

Answer: C
